### **3,000 meters of freedom!**

The Dachstein is one of the most visited destinations in Styria. And no wonder - it's the first Alpine glacier you encounter coming from the east. Even the approach on the Dachstein Glacier Lift is an experience: you rise 1,000 metres in altitude and pass a mere hair's breadth from steep rock faces. On the Dachstein at 2,700 metres above sea level, you are able to view a fantastic panorama of hundreds of mountain summits. You can also enjoy virtual panoramic views here. The ice palace deep inside the glacier is a mystic world of ice and snow.

**Aplenty view and the rugged Dachstein massive within reach - the driveway with the Dachstein Panorama gondola is a true experience.**

**The "Dachstein Sky Walk" and the suspension bridge promise "thrill with a view", which provides breathtaking spectacular views with the "Stairway to Nothingness".**
